Programming the Scanning Function on XTS 1500 Portables:

1. Place 3-Position Rotary Switch (Top) to the "B" selection
 2. Select the desired Zone via Side (Bottom) Button 2
 3. Select desired TG using 16-Position Select Knob (Top)
 4. Select/Unselect desired TG(s) to scan by pressing Top Side Button
 5. Once selected desired TG(s) to scan, place 3-Position Rotary Switch (Top) to "C" selection to set scan mode
- *Scanning function will automatically scan FIRE/EMS DISP along with selected TG(s) with priority given to selected TG for operation.

**	Zone A
